Tolls / Road use charge, goods transport
Germany

Goods vehicles of 7.5 t or more, whether they be empty or loaded, with the exception of vehicles transporting material for fairs or circuses, are subject to the German road toll ("LKW-Maut") which is levied on all German motorways and specified state roads (for an overview of the network concerned by LKW-Maut please check here.

Payment, which can be made manually or electronically by means of an on-board unit (OBU) – click here for more details - is checked by mobile control units and when the vehicle drives under the gantries installed throughout the motorway network.

Tariffs *as of 01.10.2015:*

German Maut tariffs are consisting of two factors:

- Cost of infrastructure (based on the number of the vehicle's axles)
- Cost of air pollution (based on the vehicle's emission class)

As of 01.10.2015, there are four different axle classes.
